Our Purpose

The Association of Desk and Derrick Clubs (ADDC), an international non-profit organization, is a premier provider of energy education and professional development. ADDC's purpose shall be to promote the education and professional development of individuals employed in or affiliated with the petroleum, energy and allied industries, and to educate the general public about these industries as well as the companies and global communities the members serve.

Our Mission

Our mission is to enhance and foster a positive image to the global community by promoting the contribution of the petroleum, energy, and allied industries through education by using all resources available.

Club Motto

"Greater Knowledge, Greater Service"

The Lone Star Desk and Derrick Club of Dallas President's July Letter

The United States of America commemorated the adoption of the Declaration of Independence on July 4, 1776. Independence Day is commonly associated with fireworks, parades, barbecues, carnivals, fairs, picnics, concerts, baseball games, family reunions and political speeches. I hope all of you had a wonderful holiday. You could say our weather here in Dallas has been hotter than a firecracker as of late!

I want to thank Greta McMichael for serving as Chairman of the Tally Committee and two brand new members for serving with her; they are Teri Estes and Grace Ho.

Lone Star members were treated to an excellent seminar, "Oilfield Fires" on Saturday June 16th at Brookhaven Country Club by Mr. Wayne Peters, a volunteer fireman from Graham, Texas entitled. Mr. Peters has taught several schools to other volunteer firemen on this subject. I'm just sorry all members could not attend.

On June 21st at our Membership Meeting Mr. John Trosclair of Oilfield Christian Fellowship presented an inspiring program about this organization of people who work in the industry. He informed us that there is a Dallas Chapter and anyone wishing to learn more about the organization can go the website www.oilfieldchristianfellowship.com for further information.

Don't forget to mark your calendar for September 18-22, 2018 for the ADDC Convention in Evansville, IN. There will be many great field trips, seminars and business meetings.

We do not have a Membership Meeting in July but instead have our July Social. Our Second Vice President Janet Beavers has been busy planning the social and it will take place on July 27th at Tammy Murchison's office. It will be a fun Bingo Party. We hope all members will be able to attend for a great meal, fun and fellowship. There is a page in the Pipeline regarding all of the details and location map.

On Friday September 28, 2018 our Fifth Annual Lone Star Shoot Out will be held. This clay shoot provides us with our scholarship monies. Last year we were able to provide 6 \$1000 scholarships to area students who will one day work in our industry. Our Chairman Buffie Campbell and Co-Chairman Rose Young are doing an excellent job planning this very important event. We encourage all members to solicit teams to shoot, sponsors, donations and door prizes.

We closed June out with 36 members. I encourage all of you STARS to continue to bring guests and potential members to our meetings and events. Thanks to all of you for helping make our club great!

Pat

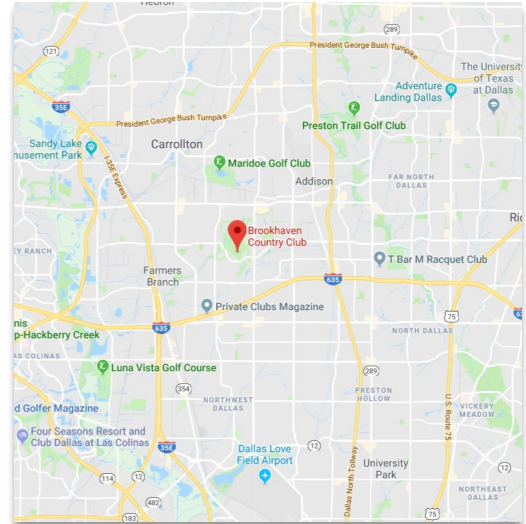

MEETING INFORMATION

Time & Place

Our meetings are typically held on the third Thursday of each month at 6:30 PM at

Brookhaven Country Club
 3333 Golfing Green Dr.
 Farmers Branch, TX 75234

Cost & RSVPs

The cost of dinner is \$30, cash or check made payable to *Lone Star Desk and Derrick Club of Dallas* / *RSVPs and cancellations must be made by the third Tuesday at 10:00 AM* / *Members and guests are responsible for payment if cancellation procedure is not followed.*

Social Hour

Prior to the meeting, the club will host a *Social Hour from 6:00-6:30 PM in the lobby adjacent to the meeting room. Drinks can be purchased at the bar.*

UPCOMING MEETINGS AND EVENTS

Membership Meetings

No July Meeting; July Social
 Will be Bingo Night, see pg. 4-5
 Thursday, Aug 16 | 6:30PM

BINGO PRIZES

Please RSVP by July 16th and pay on lonestardandd.org website

If you have any questions contact Janet Beavers at
janet.p.beavers@gmail.com

EC Energy Partners
1925 Cedar Springs Road, Suite 103, Dallas
Phone 214-720-1925

Corner of Cedar Springs and N. Akard St.

Parking available in ECE's parking lot, entrances on Cedar Springs and N. Akard St, with parallel parking on Cedar Springs. The two Parking lot entrances will be marked with balloons.

John Trosclair Oilfield Christian Fellowship

Oilfield Fires was presented by Wayne Peters, Saturday, June 16, 2018 at Brookhaven Country Club, by Lone Star Desk & Derrick Club of Dallas.

Mr. Peters is a Petroleum Engineer and worked for oil and gas companies in Lafayette, Abilene, Midland and settled in Graham almost the last 40 years as a consultant. For the last 19 years he has been a Volunteer Firefighter and currently serves as Chief of the Young County Rural Volunteer Fire Dept. and Salt Creek Volunteer Fire Dept. He has taught several fire departments in North Texas and the Red River District 10 Firefighting School so he is very familiar with oilfield fires!

His presentation included what the chemical makeup of what is in tank batteries and informed us that lightening is the cause of a lot of oilfield fires. Another cause is static electricity found in aluminum pipe where lightening can strike. He showed lots of actual fire photos and videos of tank batteries struck by lightning and the fire can be so intense, it will blow the lid off a 220 barrel tank like a rocket. He said if you can't put it out in 5 minutes then just let it burn (...or call Cudd Pressure Control or Boots & Coots).

He stressed how important it is to evacuate at least 1/2 mile radius of the fire which means no firefighters, no bystanders or surface owners or TV cameras anywhere near the fire! **LEAVE IT ALONE OR LET IT BURN!** Equipment can always be replaced. Crude oil can burn upwards of 1,000 degrees!

Submitted by Ann Hallam

David Paddock

Scientific Advisor, Seismic for Unconventionals, Schlumberger- WesternGeco, Houston

His talk will be on:

The Ongoing Problem of Uneconomic Wells in Unconventional Plays: A Geophysical Perspective of the Wolfcamp Play

Mr. Paddock serves on Schlumberger's Seismic for Unconventionals team. That team provides product development and solutions advising for Schlumberger's surface seismic solution for shales worldwide and the generation of onshore reservoir solution products for WesternGeco's multiclient library in the western hemisphere.

Currently, since 4/2012, he has served as the lead geophysicist for Schlumberger worldwide in the global move into shales for gas and for oil. He liaises between the pertinent Schlumberger segments to ensure a relevant, technically correct, integrated seismic solution for unconventional resources. I serve as product champion for Seismic HRA, an integrated core / log / seismic analysis solution geared to leverage all available geoscience measurements toward intelligent acreage development go / no go and well spacing decisions as well, potentially, toward fluid sensitivity identification and proppant strength selection.

FRIDAY, SEPTEMBER 28, 2018 | 9:00 AM - 1:30 PM
ELM FORK SHOOTING SPORTS | 10751 LUNA ROAD | DALLAS, TX 75220

ABOUT THE EVENT

HOUSTON BUSINESS JOURNAL

From the Houston Business Journal:

<https://www.bizjournals.com/houston/news/2018/07/11/texas-reclaims-no-1-spot-on-cnbc-america-top.html>

Texas reclaims No. 1 spot on CNBC's 'America's Top States for Business 2018'

Jul 11, 2018, 8:32am CDT

Texas landed the top spot on CNBC's "America's Top States for Business 2018", making it the first four-time winner in the 12-year study.

However, this is the first year Texas ranked No. 1 since 2012. The state has never ranked below No. 5 overall, and it took the No. 4 spot last year.

CNBC cites the long-awaited rebound in oil prices — which increased around 60 percent in the past year to the \$70-per-barrel range in June, per CNBC — as a major factor in this year's ranking. The report notes that the state added more than 350,000 jobs in the past year, with the energy sector driving the biggest increase.

Texas saw solid economic growth last year, especially in the fourth quarter, when state GDP increased 5.2 percent, per CNBC. That boosted Texas' rank in the economy category to No. 1 this year, up from No. 25 last year, when oil prices were around \$40 per barrel, per CNBC.

The Lone Star State also ranked No. 1 in the infrastructure category, No. 3 in access to capital, No. 7 in workforce, No. 9 in technology and innovation and No. 11 in cost of living. The state does OK in cost of doing business and business friendliness, ranking No. 18 and No. 21, respectively. However, it comes in among the bottom half of states for quality of life (No. 31) and education (No. 37).

A similar report last week also ranked Texas No. 1.

WalletHub's "2018's Best & Worst States to Start a Business" compared the 50 states across 25 key indicators of startup success divided into three main categories. Texas came out on top overall and took the No. 1 spot in the business environment category. It ranked No. 12 for access to resources and No. 16 for business costs.

Among some of the key indicators, Texas was No. 5 for highest total spending on incentives as a percent of GDP and No. 4 both for highest average growth in number of small businesses and longest average work week.

Olivia Pulsinelli

Position: Revenue and Receivables Accountant

Reports to: Vice President of Finance and Controller

Position Summary:

The Revenue Accountant will primarily be responsible for inputting revenue on a diverse set of set of ~3,000 oil and gas properties owned by three U.S. GAAP investment entities representing over \$300 million in assets under management. The Revenue Accountant will also be responsible for coordinating with personnel in the land department to maintain accurate revenue decks for each property and verifying the revenue interests of new properties appearing on check stubs. The overwhelming majority of the transactional volume for these entities' revenue will be entered via an upload portal that accepts Excel and .txt files; only a minor portion of revenue stubs will need to be manually keyed in. The Revenue Accountant will also be responsible for tracking collections of other non-trade receivables and current assets.

Responsibilities:

- I. Revenue accounting:
 - a. Entry of revenue stubs into general ledger system
 - b. Developing and maintaining relationships with counterparts at E&P operators to help resolve accounting inquiries
 - c. Monitoring timeliness of receipts by operator and escalating outstanding balances to management
 - d. Preparing basic balance sheet account reconciliations on a monthly basis for trade and non-trade receivables and other current assets
 - e. Maintaining revenue decks
 - f. Notifying management of completeness of revenue accrual so month-end close may commence
 - g. Gathering supporting documentation for audit requests
 - h. Assist in the preparation of year-end accrual
- II. Internal controls:
 - a. Maintaining internal control documentation, specifically over cash receipts process
 - b. Ensuring integrity of accounting data through adherence to the company's internal controls
 - c. Gathering and maintaining evidence of the operating effectiveness of revenue-related ICOFR
- III. Other job-related duties, as assigned by supervisor
 - a. Would most likely include accounts payable tasks, on a temporary basis, when the payables accountant is out of the office

Required Experience and Qualifications:

- Bachelor's degree in Accounting
- 2 years accounting experience at an E&P company
- Knowledge of U.S. GAAP, particularly in the area of oil and gas accounting
- Advanced proficiency in Excel (applicant will be required to undergo assessment at interview)
- Strong verbal and written communication skills

Preferred Qualifications:

- Familiarity with the OGsys accounting system
- Certified Public Accountant
- Knowledge of new GAAP revenue standard
- Familiarity with CDEX / Oildex / EnergyLink upload capabilities

Inquiries may be submitted to careers@providence-energy.com

JMAR, an oil & gas recruiting firm in Dallas has an upstream client located in Plano who is seeking a Senior Oil & Gas Accountant for a system conversion to Enertia. This project will last approximately 2 -3 months. The position would be based on an hourly rate with hours over 40 per week being paid at time and a half. The consultant for this project will be proficient in Enertia and Microsoft Excel as well as have strong oil & gas accounting knowledge.

Qualified candidates or referrals, please contact Theresa.

Great things are happening, when great things are happening usually there is change behind it. This month, here are a few items that we are working on, or items you need to be aware of.

We are very proud to announce we have 1226 members; this is exciting as we budgeted for 1200 members. Great we are over our projected number of renewals for our budget of membership numbers. We are at 82.45 percent of membership.

2019 Nominations for the Board of Directors has been announced. There are two members running for each position, this is also exciting as this hasn't happened for years. Get to know who these candidates are, as your presidents will be voting at convention with dual choices. Soon you will receive the Call to Convention, which means time is getting closer for the Convention in Evansville, Indiana. You still have time to send in your Registration. On another note, I also wanted to clarify at this time that the board field trip is paid by each individual board member attending. The Association does not pay for this trip. I can't wait to see so many of you at that time.

Fun fact about the board, the majority of us have financial back grounds. Deal with accounting and understand the lingo.

Regional meetings are now completed. Some regions are working on completing the new Region Fund Bylaws, which will take effect January 1, 2019. Also, we will have our new regions and new directors for 2019. As the last Regional Meeting was held at the end of May, the final voting on the new Regional Directors-Elect hasn't been completed. Look for the exciting news soon for the names of each new Regional Director for 2019. Sheryl Miner is working on the official regional map. Thank you, Sheryl.

2017 ADDC Convention Photos are now available for purchase. \$10.00 per cd. The order form is on the ADDC Website under "Monthly Committee Letter & Forms". Send your completed order for and your check to ADO.

The board, along with committee members has started to use drop box this year to start saving our information in one place. If there is anything of importance you want to have stored with the association, please forward to ADO and myself for approval.

ADDC Abbreviator royalties paid to the association this year is \$156.93. This is why it was a part of our strategic plan to update this. With a new addition we are appealing interest in a new book. We have already begun the update.

Grant writers, we need you. We are working on apply for 3 grants. The following grants are <http://www.pepsico.com/sustainability/Philanthropy>.
<https://www.swn.com/responsibility/pages/corporategiving.aspx>.
<https://www.shell.us/sustainability/request-for-a-grant-from-shell.html>
<https://www.nrg.com/about/community/grant-requests.html>

Articles of Association are also being updated by the most recent past presidents. Thank you for working on this.

ADDC Advertising is also a new feature we are launching this year. Details are in the Insight. Please consider advertising with us.

As part of the strategic plan, more specific. Social Media. This team consists of Carrie Harmon, Casi Nichols, Wendy Sparks and Alicia Young. They are putting together some amazing ideas. If you have any ideas to share or post, please reach out to this team. Stay tuned.

The 3rd Addition of the "Bit of Fun" Energy Activity Book (EABs) is available for order! This is a great way to share our industry with the youth. Edmonton Desk and Derrick donated books to local children overseas in London. Thank you, Karen Kinley for letting us be a part of this.

GAME on the left-hand side of the website, is a great resource for lots of leadership information. If you have not read the materials, I encourage you to do so.

Thank you to clubs who have sent me your club bulletins directly. I enjoy reading all of them. It is amazing all the things we are doing, donating and attending.

Lastly, thank you to members who have reached out to me with your words of encouragement and wisdom. This year, being a correction year is never an easy job, but it is one that must be done. I am proud of the changes I see happening now. They were much overdue, but I am very proud to see that happen. Please continue to reach out to me.

July 2018

During the American Revolution, the legal separation of the Thirteen Colonies from Great Britain in 1776, actually occurred on July 2. Second Continental Congress voted to approve a resolution of independence that had been proposed in June by Richard Henry Lee of Virginia declaring the United States independent from Great Britain rule. After voting for independence, Congress turned its attention to the Declaration of Independence, a statement explaining this decision, which had been prepared by a Committee of Five, with Thomas Jefferson as its principal author. Congress debated and revised the wording of the Declaration, finally approving it two days later, on July 4. A day earlier, John Adams had written to his wife Abigail:

"The second day of July 1776 will be the most memorable epoch in the history of America. I am apt to believe that it will be celebrated by succeeding generations as the great anniversary festival. It ought to be commemorated as the day of deliverance, by solemn acts of devotion to God Almighty. It ought to be solemnized with pomp and parade, with shows, games, sports, guns, bells, bonfires, and illuminations, from one end of this continent to the other, from this time forward forever more."

Adams's prediction was off by two days. From the outset, Americans celebrated independence on July 4, the date shown on the much-publicized Declaration of Independence, rather than on July 2, the date the resolution of independence was approved in a closed session of Congress.

The ADDC Convention will soon be here in Evansville, Indiana, September 17 – 21, 2019, get your registrations in as soon as you can!!! The deadline for registration is August 1, 2018 and is at the Double Tree by Hilton. The registration packet is available on the ADDC website – easy to find. The certification class this year is "Completion and Production" and there are numerous seminars and field trips to choose from. Plan on attending this exciting and eventful opportunity hosted by Region II Desk and Derrick Clubs – Bay Area Club, Heartland-So Illinois Club and Tri-State Club. Come out and support what they have put into giving the ADDC a successful convention!!!

Evelyn McCuley-Ingram, from the Laurel Desk and Derrick Club, Region III, will be the new Southeast Regional Director starting January 2019 and Connie Bass, from the Graham Desk and Derrick Club, Region IV right now, will be the new Central Regional Director starting January 2019. I want to congratulate each member for stepping up and taking on this challenge, I know each of them will do an outstanding job for our association.

I want to encourage each of you to think about, in a positive way, the proposed Amendments that you will be voting on at Convention. Please understand that the ADDC board, your board, have not presented any of these without a huge amount of discussion and thought process in placing them before you, the members. There are always two sides to every issue, so when deciding, I want to encourage you to really think about everything surrounding that amendment before you make a final decision. The ideas or amendments that the board gives to membership affects All members and not just a few. If I as a board member and as a regular member did not feel these amendments were necessary, then I would not be encouraging you to consider them or encouraging you to have your delegates vote for them. Delegates and Alternates, please make sure to get your Credential Form (Cred 1) filled out and turned into your region rep as soon as possible. You can find this form on the ADDC website.

ADDC is a great organization with a great purpose and mission. I challenge the members of Region IV and ADDC to tell others about your experiences and the knowledge you have gleaned from being a member of ADDC. This is what will make ADDC stronger and sustain us for the next generation and the next. I applaud our Region IV members who have already taken on this challenge.

Happy 4th of July and enjoy your summer!!

Region meetings have concluded and everyone should be gearing up to attend Convention in September. The 2018 ADDC Convention in Evansville, Indiana, promises to be one that will never be forgotten. There are a plethora of seminars, field trips and networking events. These and the certification class will provide all attendees with a great educational and networking experience.

We have received several registrations from those anticipating a memorable time, but we would like to see many more registrations. We would hate to see anyone miss this great opportunity. You are able to pay for your Convention registration by check or by credit card. I look forward to hearing from all members with your intentions to attend this historic Convention.

Please focus on recruiting new members for your club and ADDC. We have several new members and I am anticipating more new members as the summer continues. In fact, I received 6 new member applications just this week and it is only July 2! Please encourage your family, friends, neighbors and co-workers to look into joining the foremost educational and networking organization in the energy industry, which focusses on educating those involved with and/or interested in the energy industry with great opportunities for learning and networking.

Please consider joining a committee at your club, Region or ADDC level. I know that your respective Club Presidents, Region Directors and ADDC board for 2019 would love to have volunteers who are passionate and excited about the organization and its expansion and growth.

As always, I am here to assist you, your club, your region and the ADDC Board in whatever capacities I can, in order to keep things running smoothly and to promote the growth of our organization.

There is a large pool of perspective ADDC members out there! Let's go get 'em!

Until next month,

Wayne Ammons
Business Manager

**2018 ADDC Certification Program
Completion and Production
Thursday, September 20, 2018 --- 8:00 AM-5:00 PM
Instructors: David Briggs and Bryan Dicus
Location: CountryMark Pavilion, Mt. Vernon, Indiana**

We are excited to confirm the 2018 ADDC Certification Class on Completion and Production taught by Mr. David L. Briggs and Mr. Bryan Dicus will take place at the CountryMark Pavilion located in Mt. Vernon, Indiana on Thursday, September 20, 2018. The Pavilion is an interactive educational exhibit and meeting facility which will enhance your learning experience. Transportation to and from the Pavilion will be provided courtesy of CountryMark Refining and Logistics, LLC. Lunch is included.

David L. Briggs is a Consulting Geologist for Countrymark Energy Resources, LLC in Evansville, Indiana. His duties consist of well site geology, oil property evaluation for new drilling, re-completion, and waterflood potential and design.

Married with two children, Mr. Briggs graduated from Lincoln Trail Junior College in Robinson, Illinois with an Associate Degree in Applied Science in Petroleum Technology in 1973 and Indiana University in Bloomington, Indiana in 1977 with a Bachelor Degree from the School of Arts & Science with a Geology Major. He is a registered Professional Geologist in Kentucky; a member of the Indiana-Kentucky Geological Society; member of the Kentucky Oil & Gas Association; member of the Indiana Oil & Gas Association; and a member of the Independent Oil Producers Association.

He is also the President and owner of JEN Energy Corp. in Newburgh, Indiana, a company that operates oil and gas properties and does geological consulting.

He is a past Executive Vice President and owner of Mobile Fluid Recovery, Inc. in Toledo, Ohio; Evansville, Indiana; and Brampton Canada. While there he developed patented technology for solvent rags and absorbent recycling. Recycling activities consisted of reclaiming polypropylene solvent wipers and polypropylene absorbents into raw material for vehicle parts; absorbent recycling where absorbents were reused many times before being discarded or recycled, and recovered liquids were reclaimed for reuse. Additionally, he co-developed with Federal Mogul Corporation the recycling of Asian fiberboard into acoustic components for vehicle parts.

Mr. Briggs also served as an Environmental Consulting Specialist for several companies in Evansville, Indiana and as a Consulting Geologist in the Illinois Basin.

He received the Daimler-Chrysler 2001 and 2005 International "Environmental Leadership Awards", the General Motors North American Operations 2004 Environmental "We Care Award" and the General Motors 2011 "Environmental Excellence Award".

Bryan Dicus is currently a self-employed operator and engineering consultant. Mr. Dicus is a Petroleum Engineer with over 30 years of progressive technical and management experience in the oil & gas industry covering a variety of aspects in drilling, completions and production of both conventional and unconventional reservoirs.

Prior experience includes serving as Senior Vice President of Exploration and Production for Core Minerals. Mr. Dicus worked for Noble Energy, Inc. and predecessors Patina Oil & Gas, Elysium Energy LLC and Equinox Oil Company for a combined 17 years. Beginning as a Production Engineer and later serving as Completions Engineer, Lead Engineer and Operations Manager. Mr. Dicus finished his service with Noble Energy as Project Engineer Advisor in their International Engineering Services group. Mr. Dicus began his professional career with Mobil Oil Corporation spending 7 years involved in many Mid-Continent oil & gas properties where he specialized in hydraulic fracturing, waterflood optimization, profile modification and completion technology.

Mr. Dicus obtained a Bachelor of Science degree in Petroleum Engineering from the University of Missouri-Rolla. He is a member of the Society of Petroleum Engineers. He currently serves on the Executive Board for the Illinois Oil & Gas Association and previously spent 7 years on the Illinois Petroleum Resource Board.

Peach Salad with Grilled Basil Chicken and White Balsamic-Honey Vinaigrette

INGREDIENTS

Grilled Basil Chicken

- 1 lb boneless skinless chicken breasts
- 3 Tbsp olive oil , plus more for brushing grill
- 1/3 cup slightly packed chopped fresh basil
- 2 cloves garlic , minced
- 1 Tbsp fresh lemon juice

Salt and freshly ground black pepper

Vinaigrette

- 1/3 cup olive oil
- 3 Tbsp white balsamic vinegar
- 1 Tbsp honey

- 1 tsp dijon mustard
- Salt and freshly ground black pepper

Salad

- 10 oz Spring Mix lettuce
- 1 lb peaches , sliced (about 3 small)
- 2 ears corn , husked & kernels cut from cob
- 1/2 cup chopped pecans , toasted
- 1/2 small red onion , sliced thin (about 3/4 cup), rinse under water to remove harsh bite
- 4 oz Goat cheese , crumbled

INSTRUCTIONS

For the chicken:

- In a small mixing bowl whisk together olive oil, basil, garlic, and lemon juice and season with salt and pepper (about 1/2 tsp of each). Using the back of a spoon, press basil against sides and bottom of bowl (to help extract flavor from basil). Place chicken in a resealable bag and pound thicker parts of chicken to even thickness with a meat mallet, then pour basil mixture over chicken and evenly distribute basil over chicken. Seal bag while pressing excess air out, rub marinade over chicken and transfer to refrigerator and marinate 2 - 5 hours.
- Preheat a grill to 425 - 450 degrees over medium high heat. Brush grill grates lightly with olive oil then place chicken on grill. Grill until cooked through, rotating once halfway through cooking, about 4 - 5 minutes per side (chicken should register 165 degrees in center of chicken on an instant read thermometer). Transfer to a cutting board and let rest 10 minutes then slice into strips or dice into cubes.

For the vinaigrette:

- Whisk together all ingredients until well blended and season with salt and pepper to taste. Store in refrigerator until ready to use, stir again before pouring over salad.

For the salad:

- In a large salad bowl gently toss together lettuce, peaches, corn, pecans, onions, and grilled chicken. Sprinkle goat cheese over top and drizzle with vinaigrette. Serve immediately after adding dressing.

Recipe source: Cooking Classy

Yield: About 5 servings
